*January 24, 2017*

This text has *italics*.

This text is **bold**.

## First Header

### Second Header

**etc. etc.**

these words are widely spaced

One line

Next line

Third line

- first item
- second item
  - indented item
  - another indent

linked text

footnote at the bottom of the page<sup>1</sup>

quoted text is formatted this way

First Header	Second Header
Content Cell	Content Cell
Content Cell	Content Cell

plain text shows this way

now I can space this!  
More of my \*text\* here!!

in line r code 6.1415927

```
# Use comments profusely in your code!  
Time <- seq(1,10) #seq makes integer sequence  
print(Time)      #show contents
```

```
## [1] 1 2 3 4 5 6 7 8 9 10
```

```
Resp <- runif(10) # get 10 random uniforms  
print(Resp)
```

---

<sup>1</sup>This will magically appear at the bottom with active links in both directions!

```
## [1] 0.4660731 0.3108547 0.5765218 0.6815596 0.1608013 0.9006864 0.2668544
## [8] 0.6092404 0.7389083 0.8278064
```

```
plot(x=Time, y=Resp, type="b")
```

**In line equation**

Put an equation  $a = b + c$  in my sentence

**Set equation on its own line with this**

$$a = b + c$$

**Subscripts in LaTeX**

$$H_0 = Z_{a+b}$$
